

Instructions for participating in a torneolo tournament

1. Requirement: the participating player has registered at torneolo.com.
2. The following drivers must be installed on the notebook before starting:
 - ChessLink Drivers for the USB interface:
[VCP Drivers - FTDI \(ftdichip.com\)](http://VCP Drivers - FTDI (ftdichip.com))
 - Torneolo Connector:
<https://computerchess.com/downloads/#torneolo>

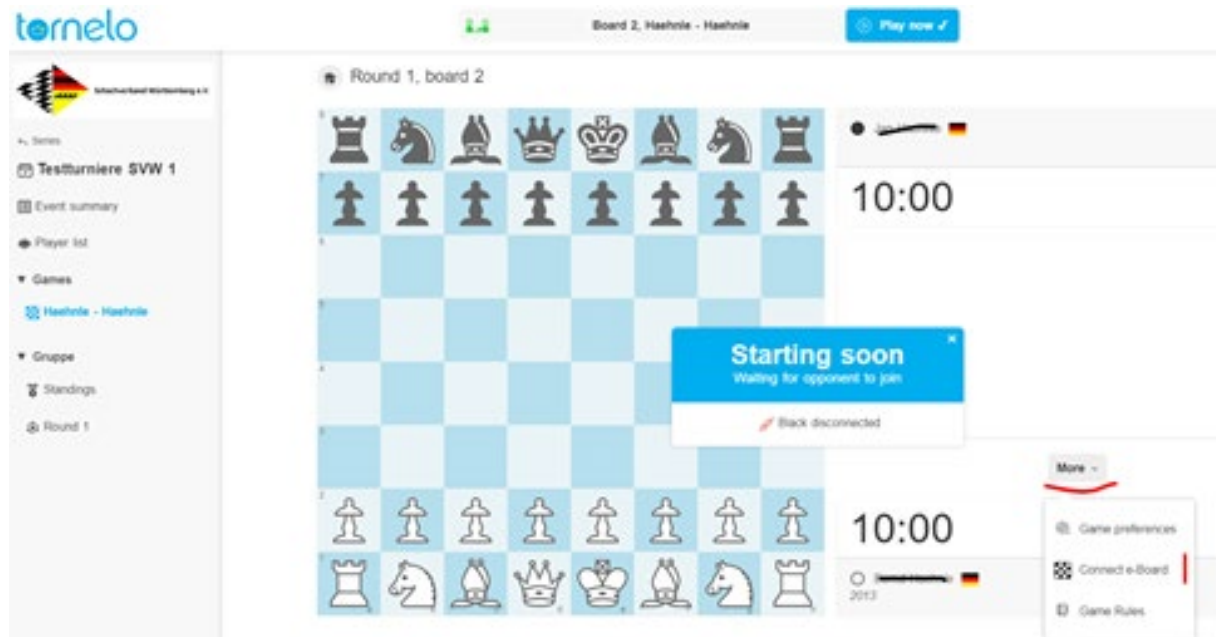

Installation in a directory of your own choice, if necessary attaching it to the taskbar to be able to start the driver more easily later.

3. Connection ChessLink with board and notebook:
 - Connect DIN cable with ChessLink and board.
 - Connect USB cable with ChessLink and notebook.

Always set up the white home position on the side facing the MILLENNIUM emblem.

4. Start **Torneolo_connector_VI_04.exe** with a double click.
5. Log in the browser (preferably Chrome) here: <https://torneolo.com/session/new> and go to the tournament room to his game.

Then press the "**More**" button there and press "**Connect e-Board**".

Next to the virtual board the status message for the board will be displayed:
e-Board-connection ok.
